Suit for different viscosity of water agent, semi-fluid and paste, it is widely used in the product filling of foodstuff, cosmetics, medicine, grease, daily chemical industry, detergent, pesticide and chemical industry. the filling-head number and the cylinder volume per the user's production demand. The 6-head, 8-head and 10-head mat be chosen, the cylinder volume has 25-250ml, 50-500ml, 100-1000ml and 250-2500ml. Choosing the international brand of electrical components. The main powered cylinder, chose the Taiwan Airtac double-action cylinder and magnetic switch, the Japanese Mitsubishi PLC computer, photo electricity and Taiwan-manufactured touching screen, ensuring a good quality and lasting steady performance.
