

SYSTEM OVERVIEW

The Sepak Industries Automated Container SPCON1000 Milk & Pasteurising Filling Line provides a highly efficient way of pasteurisation and filling straight to the bottle.

The system is equipped with:

- Milk pasteuriser
- Homogeniser
- Filling machine
- Automatic labelling machine
- Date printer capping machine
- Feeding tables.

ADVANTAGES

- Cost reduction as no processing building required
- Can be relocated anywhere (subject to Government rules)
- May be suitable for contract packing
- Existing dairy farm facility utilisation.
